

Switches

xStack Layer 3

DGS-3600 Series

Gigabit Ethernet

Layer 3 Gigabit switches with redundant power option that deliver performance, flexibility, security, and multi-layer QoS and access, support 10-Gigabit physical stacking, and can be virtually stacked with switches supporting D-Link Single IP Management (SIM)

DGS-3612G - 8-Port 10/100/1000 SFP Managed Layer 3 Switch with 4-Port Combo Gigabit/SFP

DGS-3627 - 20-Port 10/100/1000 Managed Layer 3 Switch with 4-Port Combo SFP Slots and 3 10-Gigabit Slots

DGS-3627G - 20-Port 10/100/1000 SFP Managed Layer 3 Switch with 4-Port Combo Gigabit/SFP and 3 10-Gigabit Slots

DGS-3650 - 44-Port 10/100/1000 Managed Layer 3 Switch with 4-Port Combo Gigabit/SFP and 2 10-Gigabit Slots

DES 3828P

Fast Ethernet

Layer 3 10/100Mbps switch that can be easily stacked and configured with switches supporting D-Link Single IP Management to form part of a multi-level network structure with backbone and centralized high-speed servers and provides a complete set of security features for connectivity and access control, including L2/L3/L4 Access Control List (ACL), ARP Storm Control and MAC Address Control

DES-3828P - 24-Port 10/100 Managed Layer 3 PoE Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

xStack Layer 2 Stackable

DGS-3200 and DGS-3400 Series

Gigabit Ethernet

Layer 2 Gigabit switches with high port densities for desktop connections, SFP fiber connectivity, and 10-Gigabit uplink options for seamless integration with Layer 3 core switches to form part of a multi-level network structure

DGS-3200-10 - 8-Port 10/100/1000 Managed Layer 2 Switch with 2-Port Combo Gigabit/SFP

DGS-3200-24 - 20-Port 10/100/1000 Managed Layer 2 Switch with 4-Port Combo Gigabit/SFP

DGS-3427 - 20-Port 10/100/1000 Managed Layer 2+ Switch with 4-Port Combo Gigabit/SFP and 3 10-Gigabit Slots

DGS-3426P - 20-Port 10/100/1000 Managed Layer 2+ PoE Switch with 4-Port Combo Gigabit/SFP and 2 10-Gigabit Slots

DGS-3450 - 44-Port 10/100/1000 Managed Layer 2+ Switch with 4-Port Combo Gigabit/SFP and 2 10-Gigabit Slots

DES 3526/DES-3550 Series

Fast Ethernet

Layer 2 stackable 10/100Mbps switches that provide advanced security features including ACL and Microsoft NAP to prevent rogue access or propagation of viruses and support D-Link Single IP Management for virtual stacking

DES-3526 - 24-Port 10/100 Managed Layer 2 Switch with 2-Port Combo Gigabit/SFP

DES-3550 - 48-Port 10/100 Managed Layer 2 Switch with 2-Port Combo Gigabit/SFP

xStack Layer 2 Standalone

DXS-3200 Series

Gigabit Ethernet

Layer 2+ switch equipped with 48 Gigabit ports, 4 Combo Gigabit/SFP slots, and 1 module slot that supports optional 10-Gigabit Ethernet for two XFP fiber connections, and hot-swappable power supply and removable fan tray

The DXS-3250E requires the purchase of a license to unlock the wireless switching functionality

DXS-3250E - 48-Port 10/100/1000 Managed Layer 2+ Switch with 4-Port Combo Gigabit/SFP and 1 Slot for Optional 2-Port XFP Module (2U Form Factor)

DXS-3250E-AC - Hot-swappable Power Supply Tray for DXS-3250E

Metro Ethernet Switch

Fast Ethernet

Layer 2 Edge switch that simplifies and speeds up management tasks through a web browser from any workstation with a single unique IP address to monitor, maintain, and configure multiple switches

DES-3528 - 24-Port 10/100 Managed Layer 2+ Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

Media Converters, Modules, & Transceivers

The DEM Series consists of SFP/XFP modules that can achieve long distance data transmission and high-speed communication with singlemode and multimode fiber. These modules can be installed into switches and media converters

DEM-211 - 100BASE-FX Multimode LC SFP Transceiver, up to 2Km

DEM-410X - 1-Port 10-Gigabit XFP Module for DGS-3400/DGS-3600 Series

DEM-310GT - 1000BASE-LX SFP Module, up to 10Km

DEM-421XT - 10GBASE-SR Multimode XFP, up to 300m

DEM-311GT - 1000BASE-SX SFP Module, up to 550m

DEM-421X - 2-Port 10-Gigabit Module with XFP Slot for DXS-3250E

DEM-410X - 1-Port 10-Gigabit XFP Module for DGS-3400/DGS-3600 Series

DEM-422XT - 10GBASE-LR Singlemode XFP, up to 10Km

DEM-410CX - 1-Port 10-Gigabit CX4 Module for DGS-3400/DGS-3600 Series

DEM-412X - 2-Port 10-Gigabit Module with XFP Slot for DXS-3250E

The DMC Series consists of media converters designed to convert UTP cables to fiber optic cables in designated FTTH or optional fiber network. It is able to receive transmission over long distance with minimal noise influence.

DMC-7005C - 10/100/1000 Multimode SC Media Converter 1000BASE-T to 1000BASE-SX

DMC-3005C - 100BASE-TX to 100BASE-FX Multimode SC Media Converter

The DES-102F is a two-port 100BASE-FX Fast Ethernet optional module for the DSS-24+ switch used to increase connection distances without requiring signal regeneration using a repeater to re-boost the signal.

The DGS-712 is a transceiver that plugs into any standard SFP fiber interface allowing for 1000Base-T Gigabit transmission over standard Category 5 twisted pair copper.

DES-102F - 2-Port Fiber Module for DSS-24+

DGS-712 - 1000BASE-T SFP Transceiver

Managed

DGS-3100 Series

Gigabit Ethernet

Managed Layer 2 Gigabit stackable switches with 24 or 48 10/100/1000Mbps ports that provide up to 20Gbps physical stacking, with or without 802.3af Power over Ethernet (PoE) support, 4 Combo SFP fiber links, comprehensive network security, granular bandwidth control, and extensive network management

DGS-3100-24 - 20-Port 10/100/1000 Managed Layer 2 Switch with 4-Port Combo Gigabit/SFP and 20-Gigabit Stacking

DGS-3100-48 - 44-Port 10/100/1000 Managed Layer 2 Switch with 4-Port Combo Gigabit/SFP and 20-Gigabit Stacking

DGS-3100-24P - 20-Port 10/100/1000 Managed Layer 2 PoE Switch with 4-Port Combo Gigabit/SFP and 20-Gigabit Stacking

DGS-3100-48P - 48-Port 10/100/1000 Managed Layer 2 PoE Switch with 4-Port Combo Gigabit/SFP and 20-Gigabit Stacking

DES-3028/3052 Series

Fast Ethernet

Managed Layer 2 Ethernet switches with 24 or 48 10/100Mbps ports, with or without Power over Ethernet, 2 Gigabit uplinks, and SFP slots to support both fiber Gigabit and 100BASE-FX fiber connection for specific applications

DES-3028 - 24-Port 10/100 Managed Layer 2 Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

DES-3052 - 48-Port 10/100 Managed Layer 2 Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

DES-3028P - 24-Port 10/100 Managed Layer 2 PoE Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

DES-3052P - 48-Port 10/100 Managed Layer 2 PoE Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

Web Smart

DGS-1200 Series

Gigabit Ethernet

Web Smart Gigabit switches with plug-and-play simplicity and a Smart Console Utility to access the switch from a local computer

DGS-1216T - 14-Port 10/100/1000 Smart Switch with 2-Port Combo Gigabit/SFP

DGS-1224TP - 22-Port 10/100/1000 Smart PoE Switch with 2-Port Combo Gigabit/SFP

DGS-1224T - 22-Port 10/100/1000 Smart Switch with 2-Port Combo Gigabit/SFP

DGS-1248T - 44-Port 10/100/1000 Smart Switch with 4-Port Combo Gigabit/SFP

DES-1200 Series

Fast Ethernet

Web Smart 10/100 switches, with plug-and-play simplicity and a Smart Console Utility to access the switch from a local computer

DES-1228 - 24-Port 10/100 Smart Switch with 2-Port Gigabit Ports and 2 Combo Gigabit/SFP

DES-1252 - 48-Port 10/100 Smart Switch with 2-Port Gigabit and 2-Port Combo Gigabit/SFP

DES-1228P - 24-Port 10/100 Smart PoE Switch with 2-Port Gigabit Ports and 2-Port Combo Gigabit/SFP (Wireless Ready)

Unmanaged

Unmanaged Gigabit

Gigabit Ethernet

Unmanaged Gigabit switches with 16 or 24 ports designed for cost-effective small office/home office (SOHO) and workgroup connections

DGS-1016D - 16-Port 10/100/1000 Unmanaged Switch

DGS-1024D - 24-Port 10/100/1000 Unmanaged Switch

Unmanaged Fast Ethernet

Fast Ethernet

Unmanaged Ethernet switches with 16 or 24 ports designed for cost-effective small office/home office (SOHO) and workgroup connections

DSS-16+ - 16-Port 10/100 Unmanaged Switch

DSS-24+ - 24-Port 10/100 Unmanaged Switch with Open Slot for Fiber Module

DES-1024D - 24-Port 10/100 Unmanaged Switch

DES-1026G - 24-Port 10/100 Unmanaged Switch with 2-Port Gigabit

D-Link Warranty's On Business-Class Products

Supports Commitment to Long-Term Quality; Lends Confidence to Businesses Seeking Value, Performance and Reliability

D-Link is an award-winning developer of networking solutions and our innovative manufacturing process allows us to bring high quality networking hardware to market at an affordable price. We stand behind our commitment to quality but understand that many of our customers want the additional peace of mind that is provided by an extended warranty program. D-Link understands this need and is pleased to offer the Secure-Link Extended Warranty. The Secure-Link Extended Warranty protects your investment in D-Link products by extending warranty coverage beyond the term of the original manufacturer warranty by an additional 5 years. D-Link also offers a full lifetime hardware warranty, including both the power supply and fan, on its xStack line of business network switches to further support its commitment to product quality and long-term customer confidence. This warranty extends to its popular line of xStack business-class managed switches that feature Fast Ethernet, Gigabit, Power over Ethernet (PoE), and Wireless options. Unlike some of D-Link's competitors, this is a true lifetime warranty that is transferable to any owner of the product - not just the original owner.

This should go on in text box replacing the Media Converters Modules and Transceivers and the other text box should include this statement:

Wireless

Indoor Wireless Access Points

802.11n

Wireless access points that provide various security options for network administrators to deploy a highly manageable and robust wireless network, are ideal for indoor hotspot deployments, and are compliant with IEEE 802.11n standards

DAP-2690 - AirPremier N Dual Band Access Point with Plenum-rated Chassis, Simultaneous Dual Band 802.11n, PoE Support

DAP-2590 - AirPremier N Dual Band Access Point with Plenum-rated Chassis, Selectable Dual Band Draft 802.11n, PoE Support

DAP-2553 - AirPremier N Dual Band Access Point, Selectable Dual Band Draft 802.11n, PoE Support

802.11a/b/g

Wireless access points that provide various security options for network administrators to deploy a highly manageable and robust wireless network, are ideal for indoor hotspot deployments, and are compliant with IEEE 802.11a/b/g standards

DWL-7100AP - Wireless Dual Band Access Point, SNMP, 802.11a/b/g

DWL-8200AP - Wireless Managed Dual Band Access Point, 802.11a/b/g, SNMP, 2 LAN, PoE Support

802.11g

Wireless access point that provides various security options for network administrators to deploy a highly manageable and robust wireless network, are ideal for indoor hotspot deployments, and is compliant with IEEE 802.11g standards

DWL-2100AP - Wireless Access Point, SNMP, AES, 802.11g

DWL-3200AP - Wireless Managed Access Point, Plenum Chassis, AES, SNMP, 802.11g, PoE Support

Outdoor Wireless Access Points

802.11n

Wireless access point that provides various security options for network administrators to deploy a highly manageable and robust wireless network, is ideal for deployment of building-to-building network infrastructure, and is compliant with IEEE 802.11n standards

DAP-3520 - AirPremier N Dual Band Exterior Access Point, IP65 Rated Chassis, Selectable Dual Band Draft 802.11n, PoE Support

802.11a/b/g

Wireless access point that provides various security options for network administrators to deploy a highly manageable and robust wireless network, is ideal for deployment of building-to-building network infrastructure, and is compliant with IEEE 802.11a/b/g standards

DWL-7700AP - Wireless Outdoor Dual Band PoE Access Point, 5dBi, 802.11a/b/g

802.11g

Wireless access points that provide various security options for network administrators to deploy a highly manageable and robust wireless network, are ideal for deployment of building-to-building network infrastructure, and are compliant with IEEE 802.11g standards

DWL-2700AP - Wireless Outdoor Access Point/Bridge, 802.11g, PoE Support

Unified Access System

Managed Switching

Managed Layer 2 Unified switch with 24 10/100/1000Mbps PoE ports and 4 Combo Gigabit/SFP slots that can be added to an existing network infrastructure and centrally manage multiple access points to provide wireless LAN capability to the entire organization

DWS-4026 - 20-Port 10/100/1000 Unified Wireless Managed PoE Switch with 4-Port Combo Gigabit/SFP and 2 10-Gigabit Ethernet Ports

DWL-8600AP - Unified Wireless PoE Access Point, Simultaneous Dual Band 802.11n

DWS-3024 - 20-Port 10/100/1000 Unified Wireless Managed PoE Switch with 4-Port Combo Gigabit/SFP

DWL-8500AP - Unified Wireless PoE Access Point, Simultaneous Dual Band 802.11a/g

Smart Switching

Web Smart switch with 24 10/100Mbps PoE ports and 4 Gigabit ports and Thin Access Point create an easily managed and robust wireless network

DES-1228P - 24-Port 10/100 Smart PoE Switch with 2-Port Gigabit Ports and 2-Port Combo Gigabit/SFP (Wireless Ready)

DWL-3140AP - Web Smart PoE Thin Access Point for DES-1228P, 802.11g

Power over Ethernet Accessories

Accessories that simplify network maintenance and deployments and allow surveillance cameras and wireless access points to be installed where wall AC outlets may be inaccessible

DWL-P50 - Power over Ethernet (PoE) Adapter, Terminal Unit, 802.3af, 5V/12V

DWL-P200 - Power over Ethernet (PoE) Adapter, Base Unit and Terminal Unit, 802.3af, 5V/12V

D-Link Has Your Back with Services and Support

Leverage Our Enterprise-Class Services and Support When it Boosts your Revenue

D-Link has something to prove, and our array of advanced support options and professional services help prove it. D-Link goes farther to optimize the right combination of advanced, high-quality networking technologies with proven consulting, installation and support.

Of course, D-Link recognizes the value of services provided by our partners, and we aren't in competition with you for that revenue. But when you can leverage our services to fill a gap, or to avoid turning down a project because your own resources are fully booked, and make margin on the sale of our services besides, everyone wins.

Contact your D-Link sales rep or account manager to engage D-Link's customizable professional services and flexible advanced support options. Combine the professional services you need to supplement and extend your capabilities with the support levels required to meet your customers' IT and business requirements. D-Link Services and Support can play a significant role in driving the low TCO and high business productivity your total networking solutions deliver.

Surveillance

Fixed Network Cameras

Wide range of reliable, economical, and high-quality network cameras that meet different surveillance requirements, from indoor to outdoor and from day to night, that can be connected to a network to provide a fixed viewing direction once they are mounted

DCS-3110 - 10/100 Fixed IP Network Camera, 1.3 Megapixel CMOS, 1.5 Lux, Day & Night, 6mm Lens, MPEG-4 & MJPEG, 2-Way Audio, 3G, PoE

DCS-3410 - 10/100 Fixed IP Network Camera, CCD, 0.3 Lux, Day & Night, MPEG-4 & MJPEG, 2-Way Audio, BNC Connector, 3G, PoE

DCS-3415 - 10/100 Fixed IP Network Camera, CCD, 0.38 / 1.61 Lux, Day & Night, 18x Optical Zoom, MPEG-4 & MJPEG, 2-Way Audio, 3G, PoE

DCS-3420 - Wireless Fixed IP Network Camera, CCD, 0.5 Lux, Day & Night, Iris Connector, MPEG-4 or MJPEG, 2-Way Audio, 802.11g

Pan / Tilt / Zoom Network Cameras

IP surveillance network cameras that feature motorized pan, tilt, and digital zoom for greater remote viewing options

DCS-5300 - 10/100 PT IP Network Camera, CCD, 1.0 Lux, Pan/Tilt, MPEG-4, 2-Way Audio

DCS-5610 - 10/100 PTZ IP Network Camera, CCD, 1.0 Lux, Pan/Tilt/Zoom, 2.6x Optical Zoom, MPEG-4 & MJPEG, 2-Way Audio, 3G, PoE

DCS-6620 - 10/100 PTZ IP Network Camera, CCD, 0.05 Lux, Day & Night, Pan/Tilt/Zoom, 10x Optical Zoom, MPEG-4 or MJPEG, 2-Way Audio

DCS-6620G - Wireless PTZ IP Network Camera, CCD, 0.05 Lux, Day & Night, Pan/T
