

Supercharge your ChromeOS device management

Enhance deployment, onboarding, security, and IT support for your entire fleet of Chromebooks with **Chrome Education Upgrade**.

With Chromebooks, it's just one person on our IT management team, who with a click of a button makes something happen on every device in the district... that is just awesome."

Manager of Instructional Technology,
Chicago Public Schools, US

Chrome Education Upgrade provides deeper management controls

Keep sensitive data safer

Easily manage security settings, create rules, and automate actions across your devices, apps, and accounts.

Manage devices at scale

As your school's needs change, adding or removing hardware and setting up student access to learning content is seamless.

Stay in control

Centralized settings in Google Admin console make it easy for you to monitor data and devices, investigate potential threats, and take action across your entire fleet.

One management solution for all ChromeOS devices

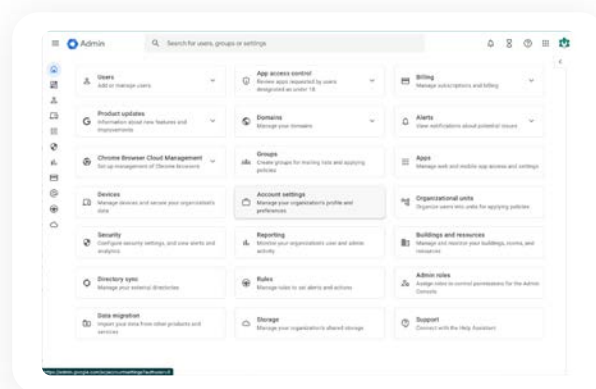

With Chrome Education Upgrade, you can manage any Chromebook or device that has ChromeOS Flex installed.

Unlock the full capabilities of ChromeOS with Chrome Education Upgrade

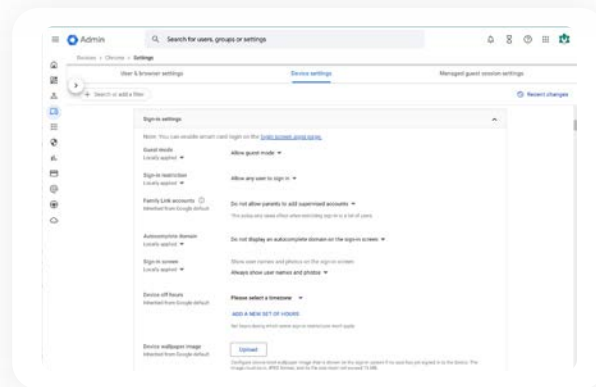

Centralized control center

Deploy thousands of Chromebooks without touching a single one from the Google Admin console. It's also where you can view reports on device usage or potential cyberthreats. Automatically re-enroll devices, push security updates, lock lost or stolen devices, and more.

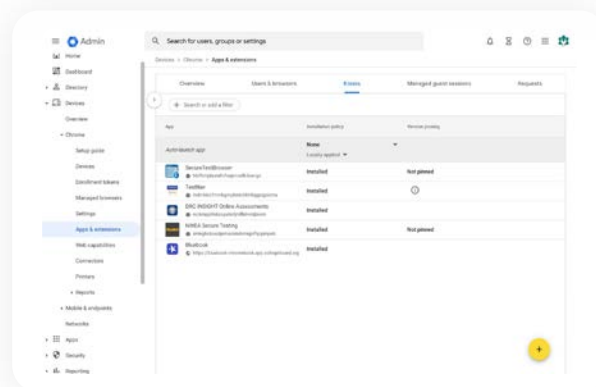

Advanced user settings

Easily customize settings that apply whenever educators and students sign in to any school-owned device. Block inappropriate content and reduce distractions with safe browsing mode. Manage user access and easily set policies across Chrome and other apps and extensions.

Made for education

Enable standardized testing on Chromebooks, prohibit student devices from visiting external pages while they're taking quizzes, and let students quickly access Chrome during library and lab time—without needing to sign in.
