

Get up to 58% faster performance with Lenovo Copilot+ PCs.

Windows 10 PCs no longer receive standard Windows feature and security updates, so simply replacing devices isn't enough. Upgrading to new Windows 11 Pro PCs delivers powerful performance, all-day battery life, and measurable improvements across productivity, security, and IT efficiency, helping organizations stay protected and productive wherever work happens.

Lenovo AI PCs running Windows 11 Pro deliver:

- **Up to 5x faster performance** than 5-year-old Windows PCs¹
- **61% longer battery life** and reliable responsiveness across workstyles²
- **Lightning-fast AI processing** to power next-gen productivity tools like Copilot

From everyday performance to enterprise-scale productivity, they give your teams the tools to do more faster and wherever work happens.

Backed by our zero-touch deployment, lifecycle services, and flexible DaaS options, upgrading to Windows 11 with Lenovo AI PCs enables a seamless shift to transformational results.

The enterprise performance advantage

Today's enterprise teams need systems that can keep pace with hybrid workflows, demanding apps, and always-on collaboration. Lenovo AI PCs with Windows 11 are built to perform from the inside out.

Not only can they speed up workflows by 50%³, they deliver fast results for your business, too. With Windows 11 and Lenovo, you can achieve **250% customer ROI in three years**³ and payback in less than six months.

Built to support every workload

Lenovo Copilot+ PCs keep enterprise data secure and deliver better, faster user experiences. Coupled with powerful, future-ready performance, they're made to scale with your business.

ThinkPad X1 Carbon

- Lightweight, high-performance flagship for execs
- Intel® Core™ Ultra processors with onboard NPU
- Long battery life and ultra-responsive experience

ThinkPad T14s

- Ultra-thin and lightweight laptop for productivity on the go
- AI-enabled features for maximum efficiency and engagement
- Robust security, document automation, and email management

The Perfect Match:
Lenovo Copilot+ PCs,
Powered by Windows 11

Why it matters to enterprise IT

- Faster, more reliable endpoint performance
