

50% faster workflows with Lenovo Copilot+ PCs.

Still running Windows 10?

Windows 10 support has ended, and PCs no longer receive standard Windows feature and security updates, leaving businesses exposed.

But this isn't just a change in support status. It's the moment to upgrade to a secure, intelligent, business-ready platform that helps organizations strengthen their security posture, enhance operational efficiency with AI-powered tools, and streamline IT management through automated deployment and updates.

Lenovo AI PCs running Windows 11 Pro with Microsoft Copilot enable your teams to work up to 50% faster¹, unleashing transformational AI-powered efficiency across your business.

This perfect match of hardware and software makes it easy to support innovation and deliver rapid ROI while maintaining the stability and security of your day-to-day operations.

Power productivity today. Be prepared for tomorrow.

The nature of today's hybrid workplaces sees teams constantly switching between apps, managing growing workloads, and relying on devices to stay productive from anywhere. Lenovo AI PCs running Windows 11 Pro help remove those barriers, boosting performance where it matters most.

With built-in tools that reduce repetitive tasks, streamline workflows, and support AI-powered assistance at scale, your teams can level up their productivity without extra training or extra hours in the office.

Smarter performance from day one

With AI built into both the OS and the device, your teams can benefit from:

- **Accelerated task completion** with Copilot and on-device AI
- **Fewer support requests** and less training time thanks to intuitive tools
- **Hybrid-ready hardware** for seamless work, wherever it happens

Unlock Next-Level Productivity with Copilot+ PCs

Copilot+ PCs from Lenovo are designed to handle enterprise AI workloads at speed. With 40+ TOPS NPUs², they run powerful generative AI tools locally, reducing latency, preserving data privacy, and boosting responsiveness.

ThinkPad X1 Carbon

- Ultra-light, premium device for senior leaders
- Up to Intel® Core™ Ultra processors with built-in NPU
- Long battery life and MIL-SPEC durability
- Ideal for mobile productivity and executive workflows

ThinkPad T14s

- Ultra-thin and lightweight laptop for productivity on the go
- AI-enabled features for maximum efficiency and engagement
- Robust security, document automation, and email management

The Perfect Match:
Lenovo Copilot+ PCs,
Powered by Windows 11

Why it matters to enterprise IT

- 25% faster deployments³
- Compatibility with 99.7% of Windows 10 apps
- End-to-end lifecycle support

Why it matters to your business

- 50% faster workflows⁴
- Up to 61% longer battery life⁵ for all-day productivity
- Faster ROI, onboarding support, and reduced support costs

Get ahead of your competitors by upgrading now that Windows 10 support has ended.

Lenovo and Windows 11 give you the tools to move faster, modernize with confidence, and keep your business productive without disruption.
