Revolutionary 10MP camera technology for
AI-accelerated collaboration

Responsible design to boost sustainability,
repairability, and circularity

Lenovo Aura Edition for elevated UX

Copilot+PC

Connection[®]
we solve IT[®]

That is the power of
Lenovo with Intel Inside[®]

Ultra-premium AI performance

Fueled by up to the Intel® Core™ Ultra X7 Series 3 Processor for Copilot+ PCs with up to built-in 12Xe Intel® Arc™ GPU for editing, multitasking, and video calls without heat or lag, the Lenovo ThinkPad X1 Carbon Gen 14 Aura Edition is crafted for real-world performance, long battery life, enterprise-grade security, and unmatched manageability. On-device AI assistance from the potent NPU and Copilot+ PC features boosts AI experiences to personalize settings, performance, and workflow while continually adjusting to your dynamic work patterns. A full array of I/O ports include a Thunderbolt 4 port on each side, enabling convenient, flexible connectivity without extra adaptors. Plus, the improved Thermal Design Power (TDP) can handle a more demanding load for improved overall performance. For professionals who work across locations and need consistent, optimized performance, this AI acceleration eliminates device friction.

Innovative employee experience

Today's movers and shakers require a refined laptop that handles demanding workloads, enables longer unplugged use for mobile uptime, and meets their responsible design requirements for durability, repairability, and sustainability. The Lenovo ThinkPad X1 Carbon Gen 14 checks every box—and then some. Get bolder collaboration with the new 10MP camera with Immervision, delivering twice the FOV coverage with adaptive distortion correction and AI-enhanced image processing to capture more people, more naturally. Plus, mics with AI noise cancellation ensure crystal-clear sound, while the 2.8K OLED display option brightens every picture. The enhanced Aura Edition features include a simple tap-to-pair ability that quickly connects your laptop and Bluetooth accessories, along with new context-aware modes that seamlessly optimize security, productivity, and real-time troubleshooting help for maximum get-it-done. The larger battery and 5G connectivity let you take productivity on the road, while your go-time is miraculously expanded with the integrated and responsive AI assistant that improves workflow efficiency and streamlines tasks.

Modern, smart, secure design

Engineered to be thinner and lighter at under 1kg, the Lenovo ThinkPad X1 Carbon Gen 14 boasts a new Space Frame chassis that embraces the micro movement. A 20% smaller printed circuit board (PCB) lowers system noise while also increasing fan size by 70% for cooler operation. Other design uplifts include the revamped keyboard with centered nomenclature, a larger Haptic TouchPad or TrackPad, and on-keyboard fingerprint reader. The innovative form gives IT easy access to upgrade and swap out components like keyboard, battery, and sub-board parts. In fact, the new design has earned this extraordinary laptop an industry-leading 9/10 iFixit score. This repairability merges with sustainable design, packaging, and certifications to optimize Lenovo's responsible, circular design. Plus, the industry-leading accessibility features create built-in inclusivity. With the comprehensive, modern, and resilient security of Lenovo ThinkShield, along with ThinkPad's legendary durability, it's hard to deny that the Lenovo ThinkPad X1 Carbon Gen 14 is the must-have for the modern hybrid workforce.

Extraordinary UX

Surround yourself with extraordinary. Lenovo and Intel® have long joined forces to engineer the best laptops in the industry. Our years of deep collaboration now culminate in bold new software solutions that elevate your day-to-day experience. The best products. The best experiences. Lenovo Aura Edition.

Lenovo Aura Edition Features

Smart Share

Seamless starts with a tap. We're breaking down device walls with exclusive experiences to merge your connected world.

Tap to launch

Pair your Android or iOS phone to your Aura Edition PC. Then simply tap to launch photo and video sharing.

Tap to pair

Skip the maze of settings when connecting accessories to your PC. Simply double tap your accessories to your Aura Edition PC to quickly pair.

Smart Care

Experts at your fingertips. Get the right support when you need it with real-time troubleshooting from real-life technicians.¹

Chat with an agent

Receive immediate help from a knowledgeable specialist on your PC

Call Support

Reach out for support or schedule a time for a call back.

AI Agent

Get support from the virtual assistant to resolve issues related to your device.

Smart Modes

Minimal distraction, maximum get-it-done. Phone settings like Do Not Disturb are great to keep you focused. With new Smart Modes, your Lenovo Aura Edition desktop or laptop adapts to you in the same way. Just switch on Automation Mode, and AI will detect your workload and instantly choose the best setting. Prefer more control? Curate each mode in system settings to fit your exact needs.

There are laptops. And there's ThinkPad.

Unapologetically professional and always focused on improving performance, Lenovo ThinkPad devices deliver timeless sophistication. Since 1992, function has defined form, with purpose and people over pretension. Although refined through the decades to stay one step ahead of tech's exponential advances, ThinkPad is still built for outcome-driven people who let their actions speak louder than flash.

Purposeful design

- Obsession with purpose-driven design elements—nothing is merely ornamental.
- Premium materials for beauty, efficiency, and strength.
- Best-in class repairability (customer replaceable units, iFixit partnership, easily replaceable keyboard).
- Clean, modern finishes that impress without boasting.

Keyboard innovation

- Industry-unique TrackPoint, the fastest, most comfortable way to move the cursor, with precise control, fatigue-free movement, and accessibility.
- Natural curve key shape to center your keystrokes and improve typing accuracy.
- Industry-leading accessibility features, like tactile keyboard markers and lighted indicators.

Trusted quality

- Robust real-world durability to withstand any environment and temperature extremes.
- Hinge life and port hardiness to endure on-the-move productivity.
- Certifications and mechanical design that combine to elevate resilience against drops, spills, and bumps.

Lenovo's relentless quest for perfection has made ThinkPad the most consistently top-rated business laptop in the world. But it's not a laptop. It's a ThinkPad.

Committed to sustainability

At Lenovo, we're focused on providing smarter technology that builds a brighter, more sustainable future for our customers, colleagues, communities, and the planet. We equip and empower you to pursue your sustainability goals with smarter end-to-end solutions, from how we make and ship your technology to how you use and return it.

The **Lenovo ThinkPad X1 Carbon Gen 14 Aura Edition** is another example of how we continue innovating to provide technology solutions that are more energy efficient and human-centered. And we're proud to partner with industry leaders like Intel as we strive to solve humanity's greatest challenges.

Accessories

ThinkPad Dual-Mode Wireless ANC Foldable Headset 8550 (Aura Edition)

Engineered for hybrid work, this headset redefines portable audio. It combines a lightweight, foldable design with Microsoft Teams-certified clarity and Bose-powered sound. With instant tap-to-pair setup, adaptive ANC, and AI-powered ENC, it delivers professional audio performance wherever you go.

ThinkPad Bluetooth Presenter Mouse (Aura Edition)

This mouse empowers mobile professionals with an ultra-slim, portable design that doesn't compromise on performance. Get no-fuss setup with tap-to-pair connection. It effortlessly switches modes, features a dedicated AI button, and is crafted with 95% PCC materials for the modern professional.

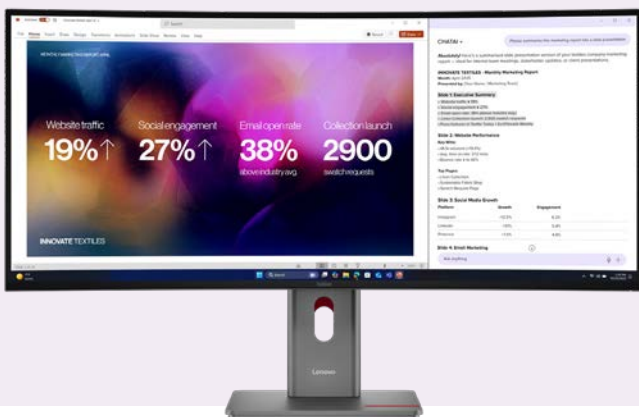

ThinkPad 16" Mag Backpack (Aura Edition)

Elevating your everyday carry, this sleek, modern, and purpose-built backpack is designed to hold your ThinkPad X1 Carbon Gen 14 Aura Edition, along with all your essentials, blending effortless style with intelligent functionality. Its magnetic design replaces traditional zippers for quick access to gear while keeping it secure.

Enhanced visuals

ThinkVision P40WD-40

This monitor delivers a major boost to modern productivity with a wide, high-resolution WUHD display for greater visual clarity and efficiency. With advanced tools to support multitasking, intelligent power management, all-in-one connectivity, and Thunderbolt 4 docking, it's a seamless hub for your workspace ecosystem—enhanced by Lenovo's intuitive display management software LDFM.

ThinkVision P32UD-40

Experience exceptional clarity and vibrant detail with this monitor's UHD display, designed for precision and productivity. Simplify your setup with USB-C docking and enjoy intelligent power management for energy efficiency. Enhance workflow control through Lenovo's LDFM and LADM software solutions for seamless remote management.

Services

Protection & Support Services

Designed to help maintain and evolve the capabilities of your devices over their lifespan with flexible options for warranty extensions, Lenovo Protection & Support Services also help minimize unplanned operating and maintenance expenses, enhancing the budget predictability of your IT operations.

Premier Support Plus

Direct access to advanced technicians for unscripted solutions, onsite support & a suite of smart services.

Premier Support

Advanced tech support 24/7/365 with single point of contact.

Accidental Damage Protection

Covers inevitable drops, spills & other accidents with unlimited claims for total peace of mind.

Digital Workplace Solutions with xIQ Digital Workplace Platform

Powered by Gen AI technology, Lenovo's comprehensive and flexible Digital Workplace Solutions with the xIQ Digital Workplace Platform create a hyper-personalized experience that boosts employee satisfaction and productivity, automating workflows to streamline tasks and reduce IT strain.

TruScale DaaS

Empower everyone with next-gen devices and maximize ROI with one flexible, subscription-based service for device lifecycle management, security, and sustainability.

TruScale DaaS for Sustainability

Modular DaaS solution with Sustainability services that help manage IT carbon footprint, reduce IT costs & boost ROI.

TruScale DaaS for AI PC

Bundles AI-powered devices, infrastructure, and services into a pay-as-you-go XaaS model.

Security Services

Build total cyber-resiliency from pocket to cloud. Strengthen your cybersecurity across every layer of your business with a comprehensive, AI-enabled one-stop solution.

Managed Services

Remote monitoring & management to enhance device health, security & reliability.

AI Services

From strategy to scale, Lenovo helps you design, deploy, and manage secure AI solutions that align with your goals and deliver measurable ROI.

AI Discover

Assessment of AI readiness across security, people, processes & technology for tailored roadmap to drive business value.

AI Adoption & Change Management

Helps integrate AI technologies, upskill employees, drive engagement to maximize ROI, addressing unique infrastructure & culture challenges.

ThinkShield

Lenovo is committed to being our customer's most trusted technology supplier. ThinkShield delivers **Comprehensive, Modern, and Resilient** solutions to defend your business.

COMPREHENSIVE

End-to-end protection against attacks at every level.

MODERN

AI-driven threat prevention, behavior-based analysis, and self-healing BIOS capabilities.

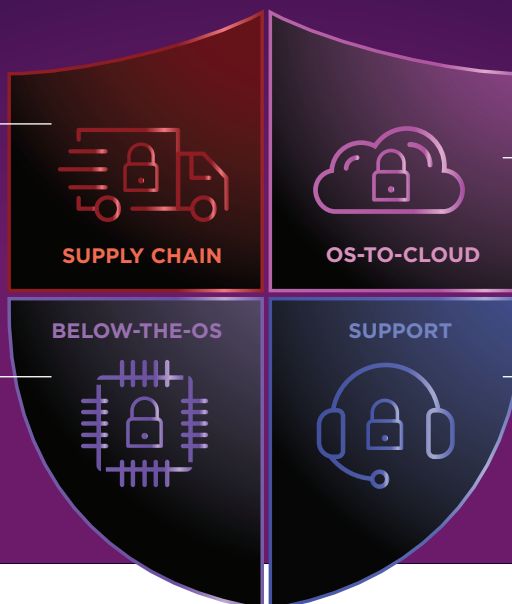

RESILIENT

Minimized disruptions by diagnosing and remediating device health issues for productivity.

Lenovo ThinkShield, protecting your business, everywhere.

Secure from the start

End-to-end supply chain protection with verifiable hardware and software assurance.

Smarter protection with AI + XDR

AI-powered security that safeguards against ransomware, phishing and data loss before they happen.

Integrity at every level

Fleet-wide firmware and hardware defense against rogue devices and advanced attacks.

Always on

Expert protection and support, seamlessly handled by one trusted partner, 24x7.

One partner, total protection.

Fueled by delivering smarter technology for all, Lenovo ThinkShield is constantly evolving our hardware, software and services to provide reliable security solutions to defend your business—without compromising end-user productivity.

Safeguard your assets

Ensure end-to-end protection and reduce attack surface

Automate protection to boost efficiency

Tailor plans to suit your needs

Stay compliant with regulatory standards

ThinkVantage Technologies

Enriching the Think experience.

For over 20 years, ThinkVantage Technologies (TVT) has been simplifying device management, increasing fleet stability, reducing the costs of IT admin/ops, and keeping endusers happy. It's a heavy burden to manage PCs. We meet you where you are to solve the challenges that keep you awake at night.

Reduce IT overhead through automation of deployment, patching & updates.

Accelerate modernization with tools that support modern management frameworks.

Improve user experience with proactive system health monitoring & self-healing capabilities.

Enhance security & compliance with integrated asset tracking & sustainability insights.

Lenovo Device Orchestration

Your administrative UI to optimize fleet management.

Lenovo Device Orchestration (LDO) is an intelligent endpoint management solution that empowers IT teams to monitor, manage, and optimize devices against common issues. LDO enhances the health, security, and performance of your devices, reducing downtime and boosting employee productivity.

- Gen AI power designed to help IT/Ops manage devices at scale with greater efficiency, insight, and automation.
- AI-generated proactive and predictive insights, remote access and control of PCs, and hardware inventory.
- Cloud-based service for real-time results with no infrastructure setup or investment required.
- Admin/Operations-facing controls for behind-the-user management.

ThinkVantage Technologies

From deployment to sustained productivity, ThinkVantage Technologies streamline workflow efficiencies through expert guidance, customized solutions, and centralized fleet management. TVT is device management, your way.
