

Level up your productivity with Adobe Acrobat Premium

Adobe Acrobat Premium is your team's essential PDF, e-signature, and AI Assistant solution that can help turn documents into action and save time. Acrobat Premium is designed to help accelerate your organization's productivity and collaboration through more secure document and e-signature workflows, whether you're in the office, working from home, or on the go.

Turn documents into action with Acrobat AI Assistant

Your data remains your data

AI Assistant only looks at the documents you tell it to. We do not use your data to train LLMs.

Save time

AI Assistant can help simplify complex documents, review contract terms quickly, and get insights from multiple documents at the same time.

Get started in minutes

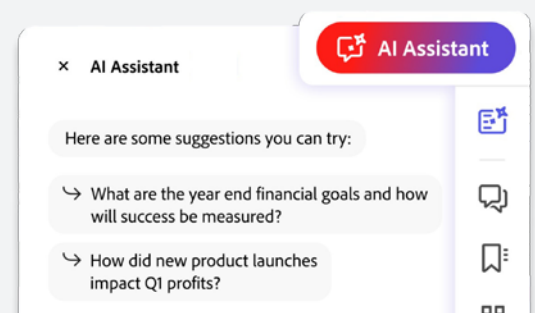

AI Assistant is embedded directly within the Acrobat app and is easy to deploy and start using.

Explore AI Assistant prompts and use cases for your business.

- **Get answers sourced from your documents**—Chat with PDFs, scanned documents, and multiple other file formats (Microsoft Word and PowerPoint, Google Docs, etc.) to get easy-to-understand responses with attributions sourced directly from the document(s).
- **Extract helpful insights**—Summarize long and complex documents to get key points (up to 600 pages, 100MB).
- **Chat with multiple documents**—Interact with multiple documents at once to capture relevant themes (up to 10 documents).
- **Get contextual responses**—AI Assistant automatically detects specialized document types like contracts and meeting transcripts to generate contextual insights.
- **Don't miss a meeting recap**—AI Assistant integrates with Microsoft Teams to quickly summarize meetings and identify next steps.
- **Structure your data**—Perform calculations and build data tables using prompts.
- **Work with AI Assistant on the go**—Employ voice commands to engage AI Assistant capabilities on the Acrobat mobile app for iOS and Android.
- **Easily generate new content**—Ask AI Assistant to craft new content for emails, blogs, presentations, reports, and more.

Knowledge workers complete tasks 4X faster on average with Acrobat AI Assistant

According to Pfeiffer Consulting's benchmark research on Acrobat AI Assistant, using AI Assistant can reduce the time knowledge workers spend on tedious and time-consuming tasks, and free up time, concentration, and creativity for higher-value aspects of a project. In their benchmarks, time-savings ranged from 14 minutes for a simple task to close to two hours for a complex assignment.

Boost team productivity and collaboration.

Give your organization access to essential PDF tools and files on their desktop, mobile device, or web browser so they can securely collaborate and be productive from almost anywhere. With Acrobat Premium, teams can:

- **Access PDFs across devices**—View and work on PDFs nearly anywhere, anytime, on any device, including macOS, Windows, iOS, and Android—Liquid Mode optimizes viewing on small screens.
- **Work better together in Microsoft Teams**—Create, share, and collaborate on PDFs in Microsoft Teams.
- **Collaborate in real time**—Securely share PDF files online and collaborate with team members on a single digital document in real time.
- **Work smarter in productivity apps**—Access, edit, and store files directly in Microsoft OneDrive, Google Drive, Box, or Dropbox while working in Acrobat Premium on desktop or mobile.
- **Easily create PDF forms**—Scan documents on mobile devices to create digital fillable and editable forms via Adobe Scan (powered by Adobe Sensei).
- **Edit and sign almost anywhere**—Comment on, fill, and sign PDFs from a browser—no sign-ups or software required.

Add e-signatures to digital document workflows.

Get the powerful e-signature capabilities that are included in Acrobat Premium so your organization can conduct business faster with:

- **Unlimited transactions**—Sign and collect unlimited e-signatures and track responses in real time.
- **Tracking and archiving**—Get email notifications as soon as approvers sign and maintain a detailed audit trail for every transaction.
- **Bulk send**—Request e-signatures from multiple signers by creating unique agreements from a single form, with each agreement dedicated to one external signer
- **Web forms**—Create web forms to collect e-signatures directly from your website.
- **Templates**—Create and share reusable e-signature templates with your team.
- **Customized branding**—Send agreements with personalized branding to ensure customers have a consistent experience across touchpoints.

Work more efficiently in Microsoft applications.¹

Add timesaving PDF and e-signature tools to the Microsoft business applications your organization relies on. Give your teams the power to:

- **Do more in Microsoft 365**—Create password-protected PDFs and send for e-signature directly from Microsoft 365.
- **Manage documents in Microsoft Teams**—Create, export, organize, combine, compress, and protect PDFs.
- **Convert PDFs to other common file formats**—Convert PDF files to editable Word, Excel, PowerPoint, or RTF files.
- **Work with documents in SharePoint and OneDrive**—Create, combine, and organize PDFs directly from SharePoint or OneDrive.
