

Logitech for Enterprise

RallyBarHuddle vs. Rally Bar Mini

Both Rally Bar Huddle and Rally Bar Mini are excellent choices for small meeting spaces, but they are optimized for different room sizes. Rally Bar Huddle is designed for huddle spaces and small-sized rooms, while Rally Bar Mini is suitable for small to medium-sized rooms. Both devices offer features like remote management with Sync, intelligent video (RightSight 2), and intelligent audio (RightSound 2). They also emphasize sustainability, incorporating post-consumer recycled plastic and FSC™-certified packaging. This document outlines the differences between these two products, highlighting their unique strengths and suitable applications.

Rally Bar Huddle

For huddle rooms and small spaces

- **Multi Mount in the box: One mount that can be**

used four ways; on a table, on a wall, above the display, or with a tripod.

- **Smaller form factor:** Rally Bar Huddle is in a compact form factor spanning about 22 inches (56 cm) in width.
- **Lower priced:** Despite its advanced features, it is less expensive than Rally Bar Mini.

Rally Bar Mini

For small and medium rooms

- **Works with Sight:** Rally Bar Mini works with Logitech Sight to add a center-of-room perspective to follow conversations between speakers, capture contextual in-room activity, and auto-frame participants for the best experience.
- **Works with multiple displays:** Use up to three displays in your meeting rooms with an optional USB-A to HDMI adapter.
- **Optional Mic Pods:** Extend the audio pick-up with up to 3 Rally Mic Pods in bigger rooms.
