WHICH AURA EDITION IS FOR YOU?

ThinkPad X9 15 Gen 1 Aura Edition

A premium AI-powered laptop designed for creators who need uncompromising performance, a large and vibrant display, and advanced multimedia capabilities. The X9 excels in demanding creative tasks, offering a stunning OLED screen, robust battery life, and a lightweight, stylish chassis.

Why Choose It:

- Ideal for video editors, designers, and content creators who need top-tier graphics, display quality, and AI acceleration.
 - Perfect for those who value a large screen and immersive visuals.
- Great for professionals who want a powerful, portable workstation with advanced camera and audio features.

ThinkPad X1 Carbon Gen 13 Aura Edition

The ultimate business laptop, combining legendary ThinkPad reliability with next-gen AI features, ultra-lightweight design, and all-day battery life. The X1 Carbon is built for professionals who need to stay productive, secure, and connected—wherever work takes them.

Why Choose It:

- Best for business professionals who prioritize portability, battery life, and robust security.
- Excellent for frequent travelers and remote workers needing a lightweight, durable device.
- Ideal for those who want seamless collaboration, premium build quality, and advanced AI-driven productivity tools.
