

# MICROSOFT 365 COPILOT WORKSHOP

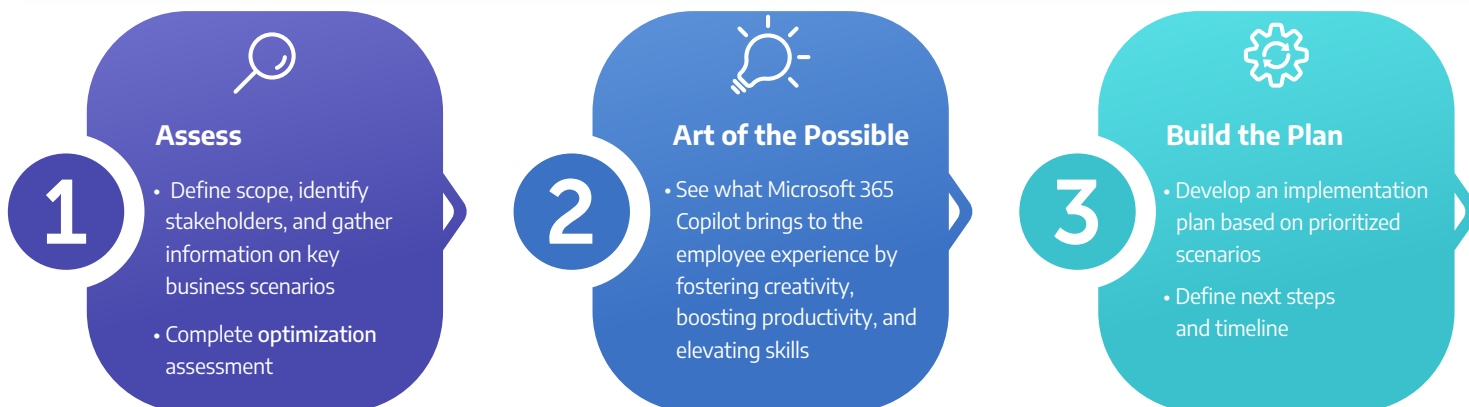

In the fast-paced and competitive landscape that describes today's educational organizations, leaders want to tap into the capabilities to boost productivity, creativity, and innovation for faculty and staff. Embracing AI necessitates meticulous planning—thorough preparation and a state of readiness—to guarantee success and return on investment. Microsoft 365 Copilot is no exception.

Embark on the initial stages of bringing AI into the workplace with Connection's Microsoft 365 Copilot Workshop. Designed as a three-phase engagement, our workshop helps you assess needs, prioritize Copilot scenarios, and define an actionable road map. It also offers insight into your readiness and uncovers optimization opportunities through targeted services that develop your data estate, analyze and augment access, and maximize security. Let Connection help prepare you for Copilot and achieve its full benefits and ROI.

## Who Should Attend?

This workshop is for K12 and Higher Ed organizations that are considering Microsoft 365 Copilot want to explore its capabilities, and learn what it takes for a successful implementation.

## WORKSHOP AGENDA

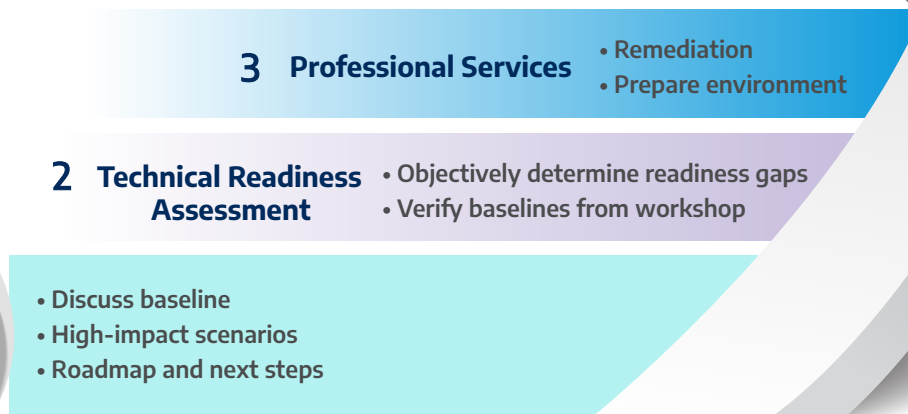

## Workshop Outcomes

- Discovery and documentation of your organization's current state for technology, architecture, and process
- Creation of a gap analysis with a roadmap to readiness
- Development of SOWs for the services you've chosen to help you prepare for Copilot implementation
- Delivery of optimization assessment containing observations, recommendations, and a prioritized action plan

## Your Copilot Journey with Connection

## Why Connection for Microsoft?

Our mission is to connect educators with technology to enhance teaching and learning, elevate productivity, and empower innovation. As a Microsoft Solutions Partner, Connection offers products, technical expertise, services, and solutions to help education organizations adapt to the ever-changing technology landscape. We drive innovation through delivery and deployment of Microsoft hardware, software, professional learning for end users (teachers, faculty, and staff), and cloud solutions—leveraging our breadth of knowledge and proven capabilities to ensure you gain the most from your Microsoft investments.
