Google ChromeOS Jump Start

chromeOS

Connection provides a full range of ChromeOS services to help you transition to a cloud-first endpoint management solution. Our team is here to guide you every step of the way. Connection is among a select number of Google partners authorized for their Partner Funding program. Customers may qualify for funding based on their eligibility.

Your ChromeOS Jump Start Journey

Funding Eligibility
• Once funding is confirmed, a certified ChromeOS Professional Administrator will ensure all aspects of a ChromeOS deployment have been tested within your organization's environment.

Assess
• We conduct an initial assessment, including the ChromeOS Readiness IT Scorecard.
• Our experts then evaluate your IT environment.

Implement
Next, the Google Admin console is set up and devices are enrolled. We then:
• Integrate and configure identities
• Establish and enforce security policies
• Deploy and configure applications
• Prepare for mass deployment

Additional Services
• Enrollment Services
• Complimentary Zero-Touch enrollment
• Full lifecycle services solutions
• Optional OS updating, asset tagging, laser engraving, kitting and package reduction, logistical services, and more
Additional managed services are available

Implementation Benefits
- **Simplify IT**: With Zero-Touch enrollment, devices are pre-configured so employees can start using them immediately.
- **Enhance Security**: Assess and optimize your security settings in the Google Admin Console to strengthen your endpoint security.
- **Increase Computing Agility**: Boost your agility and responsiveness to better meet the expectations of modern users.

Integration Services
- Modern provisioning and complimentary Zero-Touch enrollment services
- Remote user kits
- Advanced configuration services

Supply Chain Optimization
- Procurement and workflows
- Asset management
- Warehousing and logistics services

Managed Services
