

# Streamline Work to Better Serve Students

## Digitize and Modernize Document-Intensive Processes

Whether you're a university professor or a college administrator, paper-intensive processes can bog you down. Luckily, digital technologies can significantly streamline your work and get you back to educating young minds. From processing paperwork, applications, admissions and billing, to managing content and documents, Xerox education solutions can help.

### Managed Print Services

Managed Print Services (MPS) can take your printing infrastructure from average to outstanding. MPS is about more than just printers. It's everything related to printers, their output, supplies and support, the way you use documents, and the people and processes that intersect with each of these. MPS helps you gain visibility and control of document processes and costs. This ultimately saves money, automates steps, boosts productivity, and improves document security, and environmental sustainability.

### Xerox Workflow Automation for Financial Aid Processing

By accelerating the financial aid processes and eliminating delays, you can get financial aid packages to the best applicants more quickly, and risk losing applicants because your staff can't keep up with processing information. The Xerox Workflow Automation Solution for Financial Aid Processing automates the capture and routing of documents and automatically updates your student information or financial aid system as the documents come in.

### Digital Career Pathways

Skilled trades can provide an excellent opportunity for a better life, or an alternative or bridge to further education. But members of skilled trades are becoming harder to find—especially in the digital production printing and workflow industry. The Xerox Digital Career Pathway Program is designed to help students acquire the skills and knowledge they need to drive success in digital printing. The program includes curriculum, technology, and support services for effective digital print production training.

### Enable Greater Performance

With over 75 years of experience helping individuals and institutions succeed, Xerox has the products you need.

#### VersaLink® B400

Takes your students and staff to new levels of productivity with a true workplace assistant.

#33535600
