Q.1

How old are the printers/multifunction printers (MFPs) in your IT environment?

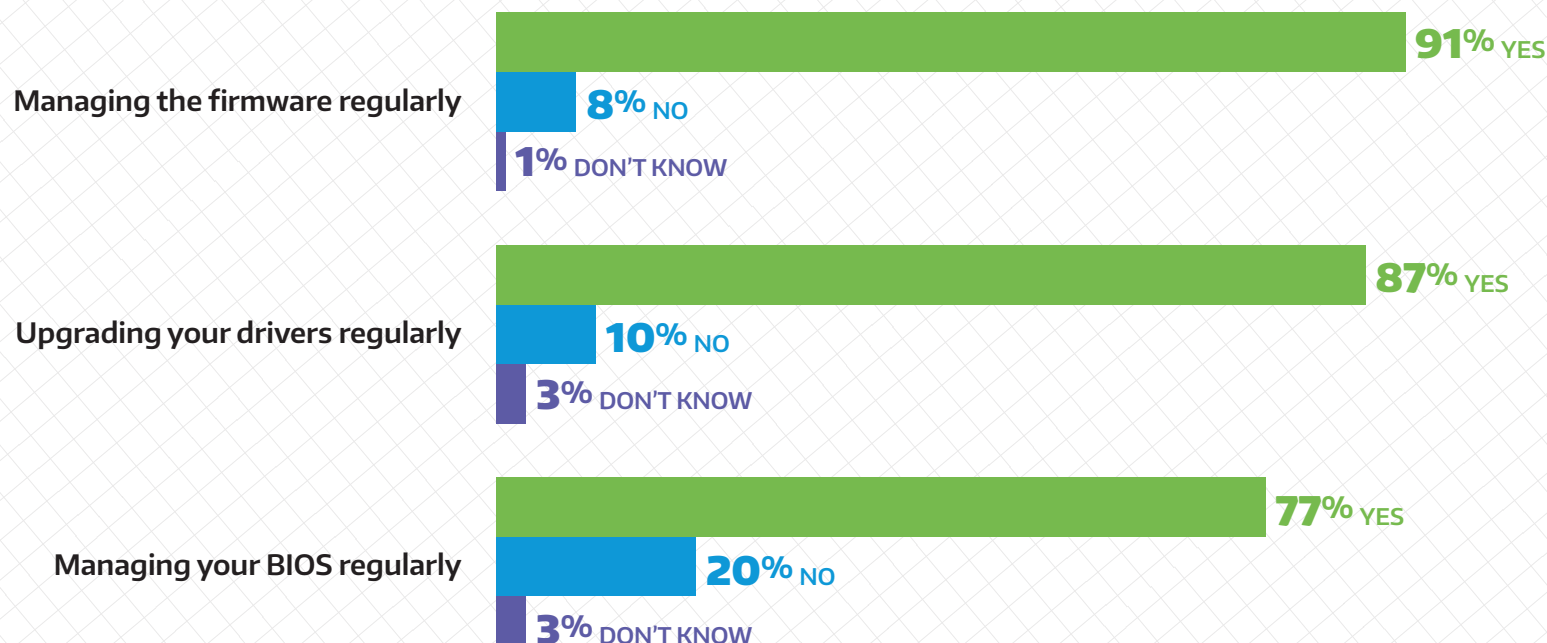

Q.2

When was the last time you checked to see if you have the latest firmware and BIOS loaded on your printers/MFPs?

Q.3

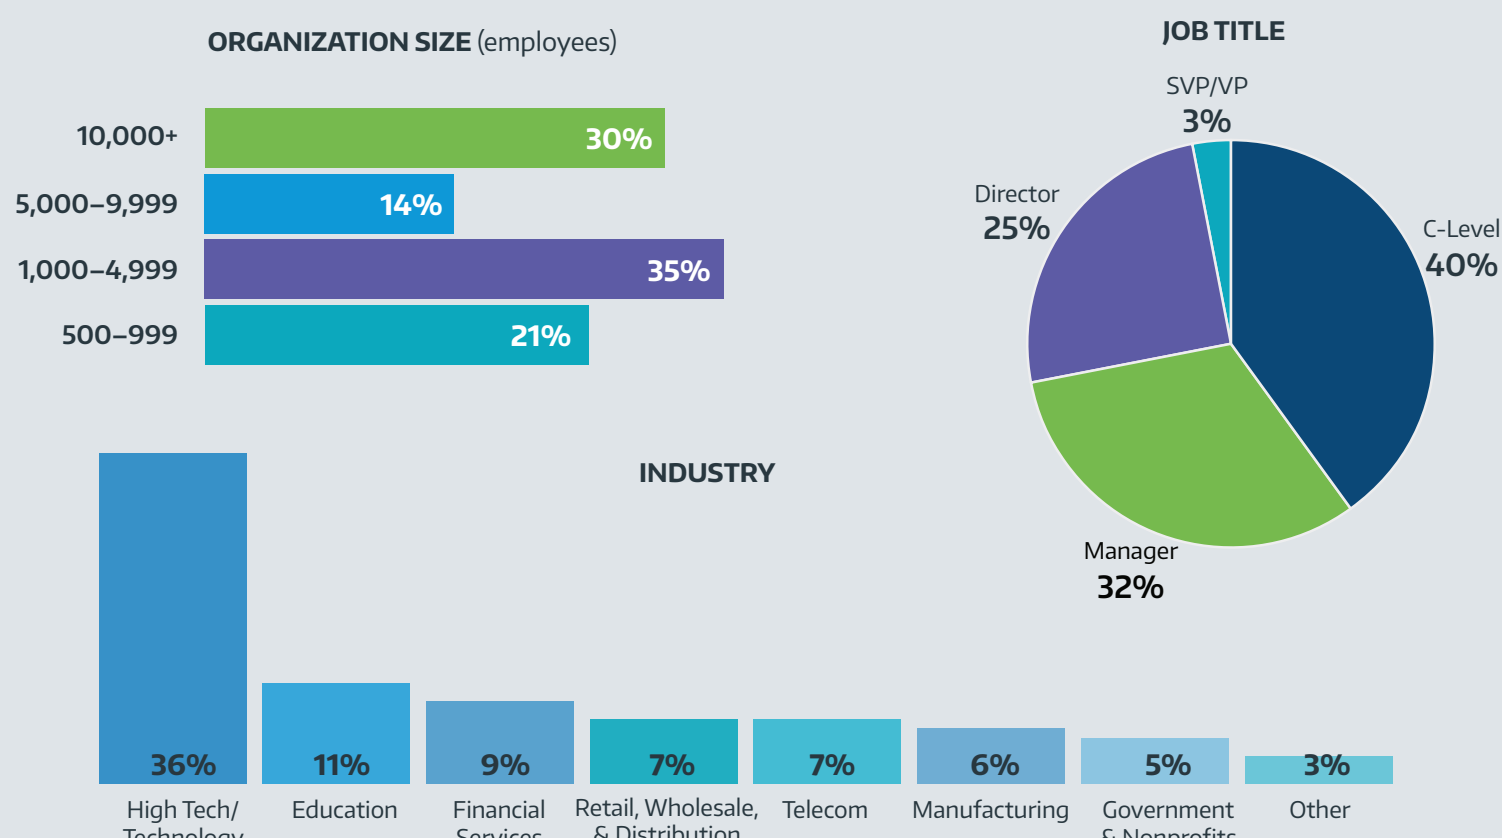

Which of the following are part of your company's printer/MFP security practice?

For those with a printer security practice, the majority are managing firmware and upgrading drivers on a regular basis.

NOTE: 9% of respondents don't have a security practice in place for printers/MFPs
